Interdisciplinary discussions on night.

Nocturnal ethnography: a quick and dirty guide

Ger Duijzings, Professor in Social Anthropology, University of Regensburg

Ger Duijzings will present the **Nightlaboratory**, which explores **the nocturnal city and its 'invisible' inhabitants** through night-time fieldwork and the shadowing of night shift workers (in London and a dozen or so other cities). The talk will reflect on the **methodological aspects**, discuss insights gained and **lessons learned**, and explain choices made in terms of **disseminating the results** of this fieldwork research through ultra-brief and hyper-realistic vignettes posted on a blog.
